# Cherif Rahman

Cloud Security & Automation Student | AWS | Infrastructure as Code
Galloway, OH | +1 614-996-7332 | cherifkrahman@gmail.com
linkedin.com/in/mrcrahman | github.com/mrcrahman | mrcrahman.github.io

## Summary

Cloud security student who deployed an automated AWS security baseline with CloudFormation and GitHub Actions. Built an IAM compliance triage engine and documented remediation that reduced open findings from 4 to 0.

## Education

**Columbus State Community College** Expected May 2029
Columbus, OH | College Credit Plus (dual enrollment)
Associate of Applied Science (AAS), Computer Science – Cybersecurity Major. CSCI-1320 Database Fundamentals: SQL Server, SSMS, ER diagrams, normalization.

**Tolles Career & Technical Center** Expected May 2027
Plain City, OH
Cybersecurity (Year 1) and Senior AI & Cloud Development. Coursework: Network Fundamentals, Cybersecurity Principles.

**Hilliard Bradley High School** Expected May 2027
Hilliard, OH
High School Diploma, General Education

## Projects

**Automated AWS Security Baseline** Oct 2026
github.com/mrcrahman/policyholder-security-baseline
- Deployed a CloudFormation security baseline to us-east-2 via Git sync, with a GitHub Actions cfn-lint IaC security gate on every push and multi-region CloudTrail with log file validation and SNS email alerts.
- Enforced S3 Block Public Access, an SCP, a CloudTrail tamper alert, EventBridge + Lambda S3 auto-remediation, and 2 AWS Config managed rules; detected a test world-open SSH rule as noncompliant.

**AWS IAM Compliance Triage Engine** Oct 2026
github.com/mrcrahman/aws-iam-compliance-triage
- Built SQL queries in DuckDB to audit IAM credential reports for 3 high-risk conditions: root access keys (Security Hub IAM.4), users without MFA (IAM.5), and access keys older than 90 days (IAM.3).
- Ranked findings by severity and documented before-and-after retests, reducing open findings from 4 to 0.

**Least-Privilege AWS Access Simulation | AWS IAM**
- Designed and validated least-privilege IAM permissions limited to the requirements of a defined task.

## Experience

**SkillsUSA | Member** Sep 2024 – Present
- Built leadership, teamwork, and communication skills with peers on technical projects.

**My Very Own Blanket | Volunteer**
- Partnered with volunteers to support children in need through a nonprofit.

## Skills

**Cloud & Automation:** AWS: CloudFormation (IaC), Lambda, EventBridge, SNS, S3, Organizations (SCPs); CI/CD with GitHub Actions; Python; cfn-lint
**Security:** IAM, CloudTrail, AWS Config, security groups, least privilege, MFA checks, security compliance, vulnerability identification
**Data & Tools:** SQL, SQL Server (SSMS), DuckDB, ER diagrams, normalization; Git/GitHub; Windows; troubleshooting; network fundamentals

## Certifications

**Cisco Certified Support Technician (CCST) Cybersecurity** | Earned Mar 2026 | Credential ID 51528090
AWS Certified Cloud Practitioner | Pending
AWS Certified Solutions Architect – Associate (SAA-C03) | Pending
PCEP – Certified Entry-Level Python Programmer | In progress; expected Nov 2026
CompTIA Cloud+ (CV0-004) | In progress; expected Mar 2027
Microsoft Certified: Azure Fundamentals (AZ-900) | In progress; expected Apr 2027
